

Distinctiveness

The KYDSC Trust's Institute of Management & Science (IMS) has introduced four professional and business management related as well as two vocational education programmes as innovative practices to help the students in their pursuit of attaining quality education and self-employment. IMS is the only Management Institute in North Maharashtra University zone who offered these crash certificate programmes in management and vocational programmes along with regular MBA Programme to boost student's ability with set benchmark of corporate like CPBL (Certificate Programme in Business Leadership) and the objective to structure this programme to develop leadership skills, traits and qualities in students with managerial skills. IMS started CPPCCS (Certificate Programme in Professionalism & Corporate Communication Skills) the objective behind to design this course to coach students properly for public speaking with developing stage daring, enhance their business presentation, report writing, business communication and business writing skills as well as prepared them with professionalism and professional ethics for corporate, daily and family life. Institute has also introduced CPFDD (Certificate Programme in Financial Derivatives) the main aim entire programme to aware non-commerce background students with financial management with rectifying fear of finance from them and developing interest as well as motivation to select finance as elective if they want though they don't have commerce and management background in graduation one more objective of this course also now a day's job enhancement in financial derivatives domain and launched CPFSDMD (Certificate Programme in Family and Small Business Management & Development) the major intention to introduce this certificate programme to create self-employment, small enterprise and entrepreneurship skills in students. Hence with covering those aspects which are not covered in regular courses of MBA program we structured the syllabus and study material for each programme. Especially IMS structured two programmes which are based on easy self-employment and to setup small business with less finance as "Certificate Programme in Organic Farming [CPOF]" the objective behind this course Organic agriculture has grown out of the conscious efforts by inspired people to create the best possible relationship between the earth and men. Since its beginning the sphere surrounding organic agriculture has become considerably more complex. A major challenge today is certainly its entry into the policy making arena, its entry into anonymous global market and the transformation of organic products into commodities. During the last two decades, there has also been a significant sensitization of the global community towards environmental preservation and assuring of food quality. Ardent promoters of organic farming consider that it can meet both these demands and become the mean for complete development of rural areas therefore we create awareness and motivate our students towards organic farming, marketing and green business practices with set relevant skills in them. IMS started "Certificate Programme in Fashion Designing & Trends [CPFDT]" the main purpose to design this course to motivate girl's students for their own small start up business or family business the selection of course since fashion design and trends are emerging need and several branded companies have excellent business opportunities in this field. These programmes successfully IMS runs under EQEP which is also one of the best practices at IMS. Institute always believe to serve quality education with simplicity and transparency with the students hence developed "Education Quality Enhancement Programme (EQEP)" and served several things under it like IMS is the only institute having less infrastructure as compare to other Management Institutions in NM University who organized National and International Conferences successfully on social centric issues like, waste and energy management and waste

to energy conversion, also on Organic business and Marketing. Institute successfully developed FDP (Faculty Development Programme), LDP (Leadership Development Programme) and MDP (Management Development Programme) which first time introduced by IMS at North Maharashtra University zone.
